## Wellness + Spa

The **Chipeta Lodge Spa by ISUN** offers a full range of wellness treatments designed to rejuvenate both body and mind. Spa services include:

- Massages
- Facials
- Body treatments
- Restorative therapies

Therapists use a premium line of natural ISUN products, manufactured locally in Ridgway and inspired by Colorado's natural minerals and oils. A range of products is available for purchase at the Spa and online.

Guests of the Spa also enjoy access to outdoor hot tubs and the Resort's private heated swimming pool, creating a year-round relaxation experience.

---

## Accommodations

Chipeta Lodge Resort + Spa features **35 thoughtfully designed guest rooms and suites**, each inspired by the surrounding landscape and historic Colorado heritage. Many rooms include private balconies or patios with mountain views, fireplaces, and kitchens or kitchenettes, creating a comfortable retreat after a day outdoors.

Select rooms also feature **private outdoor hot tubs**, allowing guests to soak privately with a view.

---

## Dining

**White Buffalo Restaurant + Bar** is the resort's signature dining venue, offering elevated seasonal cuisine and handcrafted cocktails in a relaxed mountain setting.

The restaurant's panoramic windows and rooftop deck provide sweeping views of the Cimarron Range of the San Juan Mountains, making it one of Ridgway's most popular spots for sunset dining.

---

## Events + Retreats

With newly renovated treatment rooms and public spaces, Chipeta Lodge Spa by ISUN is a perfect place for:

- Wellness retreats
- Couples getaways
- Destination weddings
- Milestone birthday celebrations
- Getaway time with your BFFs

Indoor and outdoor spaces accommodate gatherings while preserving the property's boutique atmosphere.

---

## **Who is ISUN**

Chipeta Lodge Spa by ISUN is managed in partnership with ISUN Skincare.

ISUN face and body treatments incorporate organic, plant-based products that are pure and energetic. Corresponding to the inherent life-force energies in our skin, ISUN rituals have been thoughtfully curated to reach holistic rejuvenation and well-being.

The ISUN active plant-based ingredients are kept in their whole form, still flourishing and alive through the cold-processing process. This method maintains the integrity and life-force energy that live plants impart through nutrients and minerals that penetrate the layers of the skin and nourish on a cellular level.

Formulated in the San Juan Mountains in Colorado, their wild-crafted & organic herbs, pure plant distillates, essential oils and butters harmoniously synergize to encourage the light within to radiate.

ISUN is an ethically sourced collective that respectfully recognizes the sacred land on which they source live ingredients and thank the indigenous cultures and organic farmers with whom they work closely, for protecting and celebrating the land and natural world in which we live.
